## General Safety Information

READ AND FOLLOW ALL SAFETY INSTRUCTIONS

### ⚠ WARNING

**WARNING:** Carefully read and understand the information given in this instruction sheet before beginning the assembly and installation.

Failure to do so could lead to electric shock, fire, or other injuries which could be fatal.

- Ensure the electricity to the fixture you are working on is shut off.
- Risk of fire or electric shock. Fixture must be installed by a qualified electrician.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.

**NOTICE:** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna, increase the separation between the equipment and the receiver, connect the equipment into an outlet on a circuit different from that to which the receiver is connected, and consult the dealer or an experienced radio/TV.
